Admission.

Candidates for admission to the Freshman Class are examined in the following books and subjects :—

Latin Grammar — Harkness's preferred.
Harkness's Latin Prose Composition, Parts I. and II.
Cicero — seven orations.
Virgil — the Bucolics, and the first six books of the Æneid.
Sallust — Catilinarian war.

Greek Grammar — Crosby, Kühner, or Hadley.
Xenophon — Anabasis, three books.
Homer — Iliad, two books.
Ancient Geography.

Arithmetic.
Algebra — Greenleaf's Higher, to Quadratic Equations.
Geometry — Loomis, two books.
English Grammar, including Orthography and Orthoepy.

The examination in the common English branches will be insisted on with no less strictness than in the ancient Languages and the Mathematics. Real equivalents will be accepted instead of the text-books named.

Candidates for higher standing are examined as above, and also in the studies gone over by the class to which they may desire admission.

The stated times for examination are the Tuesday preceding Commencement, at eight o'clock A. M., and the first day of the following term, (August 27, 1868,) at eight o'clock A. M. But in special cases, candidates may be examined, and admitted at other times in the year, excepting that no admission to the Senior Class is allowed later than the beginning of the second term.

The place of examination is the Alumni Hall.

Previously to examination, the candidate must exhibit satisfactory testimonials, that he sustains a good moral character. If he has been a member of any other College, he will be expected to present a certificate of regular dismission.

No one can be admitted to the Freshman Class, until he has completed his fourteenth year; and no one to an advanced standing without a corresponding increase of age.

Greek Literature.—Professor Tyler, Thursday, at half-past eleven o'clock.

THIRD TERM.

SENIORS.

Natural Theology.—The President, four days in the week for four weeks, at eleven o'clock.

Geology and Astrolithology.—Professor Shepard, thirty lectures.

History of Philosophy.—Professor J. H. Seelye, through the term, in connection with the text-book.

Philosophy of History.—Professor Tuckerman, twelve lectures.

Political Economy.—Hon. Amasa Walker, in connection with the text-book.

JUNIORS.

Natural Philosophy.—Professor Snell, Wednesday and Saturday, at ten o'clock.

Mineralogy and Conchology.—Professor Shepard, fifteen lectures.

Greek Literature.—Professor Tyler, Thursday, at eight o'clock.

Botany.———, Thursday and Friday, at quarter past four o'clock.

SOPHOMORES.

Latin Literature.—Professor Crowell, Monday, at eight o'clock.

Calculus.—Professor Esty, Wednesday and Saturday, at eight o'clock.

FRESHMEN.

[illegible]ama.—Professor Mather, Saturday, at eight o'clock.

EXAMINATIONS.

1. Oral Examinations of all the Classes, at or near the close of each Term, on the studies of the Term.

2. Written examinations of all the Classes, near the close of each year, on the studies of the year.

A record is kept by the Faculty of the attainments and deportment of every student, and each student's standing on the merit roll is made known to him at the beginning of every term. Information concerning his proficiency and deportment is, when requested, communicated to the parent or guardian.

LIBRARIES.

The Libraries of the College and the Literary Societies contain about thirty-four thousand volumes. The College Library is accessible to all the students, according to rules established by the Library Committee, and is open in term-time for the delivery of books, on Monday, Tuesday, Thursday, and Friday of each week, from quarter-past one to two o'clock P. M. The Libraries of the two Literary Societies are accessible to the members of the Societies according to regulations established by themselves, and are open for the delivery of books on Wednesday, from half-past two to quarter-past three P. M., and on Saturday, from half-past one to two o'clock P. M.

APPARATUS FOR MATHEMATICAL AND PHYSICAL SCIENCE.

The *Lawrence Observatory*, consisting of a transit room, and a tower with a revolving dome, is furnished with instruments for accurate astronomical observations. The pier in the centre of the tower sustains a refracting telescope, mounted equatorially, having a focal length of nine feet, and an aperture of seven and one-fourth inches. The telescope was manufactured by Alvan Clark, A. M., of Cambridgeport. The transit room contains a transit circle, clock, and chronograph, for meridian observations. The circle was graduated by Gambey, of Paris.

The Observatory also contains an altitude and azimuth instrument, by Gambey, a theodolite, a leveling instrument, and other articles—all of the latest and best construction, for surveying and engineering.

The collection of apparatus for experiments in Natural Philosophy, occupying for the present a room in the Chapel Building, is extensive, and well adapted for a full course of experimental illustration.

The lower story of Williston Hall is appropriated to a Laboratory, both for lectures and for analysis. These rooms are furnished with apparatus for an extensive course of chemical experiments.

CABINETS OF NATURAL HISTORY.

The specimens illustrating Natural History and Human Antiquities, are deposited in the two fire-proof edifices known as the Woods Cabinet and Appleton Cabinet.

The Woods Cabinet, named in honor of Hon. J. B. Woods of Enfield, Mass. contains the Geological Collection, the Shepard Collection, and the Dickinson Nineveh Gallery. The *Geological Collection* contains rocks and fossils, illustrating the general science of Geology, comprising about 20,000 specimens. The *Shepard Collection*, named from its collector, Prof. C. U. Shepard, occupies the upper story of the Cabinet, and consists of over 6,000 specimens of simple minerals, several thousand specimens of living and fossil shells, and a very valuable collection of meteorites. The *Nineveh Gallery*, built by Enos Dickinson, Esq., of Amherst, contains about 200 specimens obtained by Dr. Henry Lobdell from the ruins of ancient Nineveh and Babylon. It exhibits sculptured slabs from the palace walls of Sardanapalus at Nimroud, as well as several hundreds of antique coins, seals, and cylinders, from the same cities.

In the Appleton Cabinet, named from the late Samuel Appleton of Boston, are the *Hitchcock Ichnological Collection*, the *Gilbert Museum of Indian Relics*, and the *Adams Zoological Collection*.

In the unique *Ichnological Collection*, named after the late President Hitchcock, are to be found about 1400 specimens, containing at least 10,000 tracks of animals in stone, together with plaster and clay casts of tracks of living and fossil animals. The *Museum of Indian Relics*, receives its name from Hon. George H. Gilbert of Ware, Mass., by whose liberality it was mainly established. It comprises about 2,000 specimens of the stone implements of the extinct Indian race, and principally those who lived in the Connecticut Valley. The *Zoological Collection* was principally gathered by the late Prof. C. B. Adams. It comprises prepared specimens of animals

and their habitations, and dried plants, representing all the great groups of the animal and vegetable kingdoms. A collection of comparative anatomy has been commenced and is incorporated with this collection.

These collections contain more than 100,000 specimens, of the animal, mineral, and vegetable kingdoms.

The Cabinets are open to the public each week day from ten to eleven o'clock in the morning, and from three to four o'clock in the afternoon, when the Custodian will be in attendance.

AIDS TO CLASSICAL STUDY.

Through the liberality of certain friends of the College, the Classical Recitation Rooms have been provided with various works of art, calculated to facilitate instruction, and to increase the interest of the students in these departments.

PHYSICAL CULTURE.

The Barrett Gymnasium, named in honor of Dr. Benjamin Barrett of Northampton, is a granite building, with Bowling Alleys, and the Gymnastic Apparatus essential for the health, recreation, and proper development of 250 students. It is open during the day time to the students of the college for voluntary exercise, and at an appointed hour each class is required to be present and engage in exercise under the direction of the Professor of this Department. The required exercise consists almost entirely of the so called light gymnastics, the movements of which are guided and timed by music, while the heavy and more difficult gymnastic work is entirely at the option of the student. No effort is required of any student which cannot be safely and profitably undertaken by any person who is sound in body and mind.

The Professor in this Department is an educated Physician, and as far as possible is expected to be acquainted with the physical condition of each student in town during term-time. All students are permitted to consult him without charge, and no absence for sickness can be excused by the class officer without a proper certificate from the Professor in this Department. Careful vital statistics are taken of each student at regular intervals, and thus each member of college can compare his condition with that at certain previous periods of his course. This Department has been in successful operation for the past six years, and its good effects have surpassed the most sanguine expectation of its projectors and friends.

EXPENSES.

The following are the principal necessary expenses, exclusive of vacations:

Tuition, $15,00 per Term, - - - - -	$45.00	$45.00
Room Rent from $4.00 to $6.00 per Term, - -	12.00	18.00
Recitation Rooms, and Ordinary Incidentals, $4.00 per Term, - - - - - - - -	12.00	12.00
Gymnasium, $2.00 per term, - - - - -	6.00	6.00
Fuel and Lights, from $10.00 to $15.00 - - -	10.00	15.00
Board from $3.00 per week to $5.00; making per year of *thirty-eight* weeks, - - - -	114.00	190.00

The expenses for Room Rent, Fuel, and Lights are estimated on the supposition that two students occupy the same room. For a few choice rooms a higher rent will be required.

In case of admission to an advanced standing, $5.00 per Term for the previous Terms will be required, unless such standing shall have been attained in another College. This charge is sometimes for special reasons, particularly in case of indigent students, remitted by the Prudential Committee.

There are some expenses which result from taxes voluntarily imposed by the classes or societies. These, and expenses for furniture, stationery, etc., will vary according to circumstances and the character and habits of the student.

PAYMENTS.

The amount of the first Term Bill must be paid by each student on his admission. Each subsequent Term Bill has heretofore become due at the close of the Term for which it is assessed; but hereafter all Term Bills must be paid in ADVANCE. A bond with satisfactory surety for the payment of all the College Bills must be given by each student to the Treasurer, at the commencement of the Term when he enters.

SCHOOL KEEPING.

Students are allowed to teach school each year, twelve weeks, including the nearest vacation, if their pecuniary circumstances absolutely require it.

SCHOLARSHIPS.

The College has a fund of sixty-five thousand dollars, the income of which is appropriated to aid young men who are preparing for the Christian Ministry, and need assistance. Meritorious students of this class can receive

each a scholarship of *sixty* dollars annually, which will be credited to them on their Term Bills. The same class of students usually obtain aid from the American Education Society to the amount of not less than *one hundred* dollars annually.

Besides the foregoing, several other scholarships have been established in the College, which are available on the conditions specified by the donors. Three were founded by the bequest of Rev. Dr. Moore, the first President of the College, the receivers of which are nominated by the Brookfield Association of Ministers; three others were founded by the late Asahel Adams, Esq.; one by Hon. Levi Russell; six by Samuel A. Hitchcock, Esq., of Brimfield, who gave the College $10,000 as an endowment for the purpose; one by Rev. J. L. Merrick, of South Amherst, one by Mrs. Sarah Tuttle of Wayland, and one by John Bertram, Esq., of Salem. In designation and annual amount, these are nearly as follows:

The Moore Scholarships, $140 each; the Adams Scholarships, $40 each; the Russell Scholarship, $70; the Hitchcock Scholarships, $100 each; the Persian Scholarship, $120; the Tuttle Scholarship, $75; the Bertram Latin Scholarship, $130. Besides these, there are three State Scholarships, as conditioned by the Legislature of Massachusetts, $45.00 each.

PRIZES.

Prizes for Excellence in Writing and Speaking.—For Composition; to Seniors, first prize, twenty-five dollars; second, fifteen dollars; to Juniors, first prize, twenty dollars; second, ten dollars. For Declamation; to Sophomores and Freshmen, each, first prize, ten dollars; second, five dollars.

The Hardy Prizes for improvement in Extemporaneous Speaking. These are given by Alpheus Hardy, Esq., of Boston, and are awarded near the close of the College course; first prize, fifty dollars; second, thirty dollars; third, twenty dollars.

Greek Prizes.—1. The Mather Prizes. Given by Henry Mather, Esq., of Binghamton, N. Y; forty dollars for the best, and twenty dollars for the next best examination, both oral and written, in the Demosthenes, Plato, and Homer's Iliad, read in the College course.

2. The Strong Prizes. Established by Alexander Strong, Esq., of Boston; thirty dollars to the member of the Freshman class whose standing

is the highest in Greek at the close of the year, as determined by the marks for all the recitations and examinations of the Department; and thirty dollars to the member of the same class who shall have made the greatest improvement in his standing during the year.

Latin Prizes. Junior prizes, thirty dollars for the best, and twenty for the next best examination, both oral and written, in the Latin of the College course. Sophomore prizes, ten dollars for the best, and five for the next best written translation into Latin of an assigned passage from some English author.

The Walker Prizes. For the best examination, both oral and written in the mathematics of the year; to Sophomores, first prize, thirty dollars; second, twenty dollars; third, ten dollars; to Freshmen, first prize, twenty-five dollars; second, fifteen dollars.

The Phi Beta Kappa Prize. A prize of forty dollars given by the Phi Beta Kappa Society to a member of the Society for proficiency in the studies of the philosophical department during the Senior year, in such direction as the Faculty may from year to year determine.

The Porter Prizes. Established by Eleazar Porter, Esq., of Hadley.

1. A prize of sixty dollars to the candidate who passes the best examination for admission to the Freshman class. Together with the name of the successful candidate, the school at which he prepared for College will be published in the Catalogue.

2. A prize of thirty dollars for scholarship in Natural Philosophy, (including Mechanics and Physics,) to be awarded at the close of Junior year to the student whose standing is highest, as determined by the marks for all the recitations and examinations of the department.

The Woods Prize, for general culture and improvement, given by Hon. J. B. Woods, of Enfield. A prize of sixty dollars (in the words of the donor),

"To be awarded at the close of the College course to the member or members of the Senior class whose conduct has been the most meritorious in regard to punctuality, application to study, observance of law and order, courtesy to officers and fellow-students, and faithfulness in every duty; and who with hearty submission to the will of God as indicated in His revealed word and the physical and mental laws of their being, have, during their College course, made the most of their time, talents and opportunities in developing and improving their whole character, physically, intellectually, socially and morally, as students and gentlemen."

The Butler Prize. A prize of fifty dollars for the best comprehension of Butler's Analogy, including the Lectures and explanations of the recitation room. The award to be made from the records of the recitation room, and from special examinations oral and written at the end of the year.

The Sawyer Prizes. Two prizes given by Hon. E. H. Sawyer of Easthampton, Mass., to be awarded in the department of Physical Culture.

1. A prize of thirty dollars to be awarded to the candidate who passes the best examination in Anatomy, Physiology and Hygiene.

2. A prize of thirty dollars to be awarded in the department of Physical Education and Hygiene, at the discretion of the Professor in that department.

The Prizes for last year were awarded as follows:
